

SDE Camp Bootcamp

Day 5(07.02.2022):

Topic: Backtracking

Practice problems:

1. [Permutations](#)
2. [Permutations II](#)
3. [Permutation Sequence](#)

Don't look at the solution while starting the problem. First, understand how you can use the concepts you learned and try on your own. If you are stuck check some hint, even if you can't solve it then check the solution, understand the solution and do it on your own. Don't copy the solution :(

Web :

Topic: Javascript

Resource:

Introduction : <https://javascript.info/getting-started>

Basic concepts: <https://javascript.info/first-steps>

Practice:

Get your name from the input tag.

On clicking a button, an alert should be popped up with the input name. Solutions will be

posted here <https://github.com/suresh213/sde-camp-bootcamp> after 6 pm.
